YORKSHIRE PURCHASING  
ORGANISATION

To Whom It May Concern:

'Dr Mark' Biddiss has delivered regular, high quality science and maths CPD days for the Yorkshire Purchasing Organisation (YPO) since June 2005. His day sessions are always very well attended and very well received.

Mark's full-day sessions are always full of hands-on, practical investigative science and maths activities suitable for the classroom, and adaptable for a wide pupil age and ability range.

Teacher feedback to Mark's sessions is always very positive - "... *Mark keeps his audience focused*", "...*enthusiastically presented*", "...*super ideas*", "...*an extremely enjoyable day*", are regular comments on evaluation forms, coupled with Mark's ability to inspire his audience, which is unquestionable. Consequently, YPO is very pleased to continue to engage Mark to deliver his popular science and maths teachers' CPD sessions.

Based on my own direct experience of working with Mark, along with teachers' feedback, I have no hesitation in recommending Mark as a high-quality, inspiring and professional teachers' CPD trainer to any future potential client.

Yours sincerely

A handwritten signature in cursive script that reads "P L Mitchell".
